I really like how long the Dry Idea works for protection from odors.

No roughness to the gel, like some cleansers have.

I would prefer natural ways as I don't want to have to take meds.

I'm the one who runs the dryer a couple of extra rounds when I don't feel like folding it and putting it away:) That way it doesn't get wrinkled from just sitting there.

Commercials are always full of the newest facial products that are often very costly and don't work.

Disclosure- Dry Idea provided a free sample of their Advanced Dry Roll-On so I could review them.

The packs dissolve completely so there is nothing left to clean up.

One of the most important things to me is how long it lasts.

So for me a gel was great to try, even though there are some solid form deodorants that are great.
