I would prefer natural ways as I don't want to have to take meds.

Commercials are always full of the newest facial products that are often very costly and don't work.

I really like how long the Dry Idea works for protection from odors.

The packs dissolve completely so there is nothing left to clean up.

No roughness to the gel, like some cleansers have.

I'm the one who runs the dryer a couple of extra rounds when I don't feel like folding it and putting it away:) That way it doesn't get wrinkled from just sitting there.

So for me a gel was great to try, even though there are some solid form deodorants that are great.

Disclosure- Dry Idea provided a free sample of their Advanced Dry Roll-On so I could review them.

a bit quiet around here lately, but it is about to get busy.
