Commercials are always full of the newest facial products that are often very costly and don't work. I would prefer natural ways as I don't want to have to take meds. The packs dissolve completely so there is nothing left to clean up. I really like how long the Dry Idea works for protection from odors. No roughness to the gel, like some cleansers have. So for me a gel was great to try, even though there are some solid form deodorants that are great. I'm the one who runs the dryer a couple of extra rounds when I don't feel like folding it and putting it away:) That way it doesn't get wrinkled from just sitting there. a bit quiet around here lately, but it is about to get busy. Disclosure- Dry Idea provided a free sample of their Advanced Dry Roll-On so I could review them. If you are in Canada please check this page to order your sample pack.
